

## Update on the Clinical Workplace Assessment App (CWAapp)

### Silas Taylor

Office of Medical Education, UNSW Medicine

#### **Abstract:**

The Clinical Workplace-based Assessment application (CWAapp) has been extensively used in Phase 1 for communication skills (SOCA) tasks and recently successfully employed for miniCEX tasks in the Clinical Transition Course. Dr Silas Taylor, who led the project which introduced the app, will reflect on successes and challenges to date and discuss plans for use throughout Phase 2 in 2019.
